

Your vote has the **power** to make a difference for **good** -- for our **families** and for our **society**.

Thank you for caring enough to do your part on Tuesday, Nov. 6, 2018.

SaveCalifornia.com is happy to provide you with this summary of our recommendations for the 11 California ballot propositions. Since 2000, our pro-family picks have been based on evidence, logic, and Jesus Christ's command to "love your neighbor as yourself." Voting in a way that honor's God's design for our lives can have great benefit to individuals, families, and society as a whole.

As your statewide pro-family leader — fighting the good fight for your values year-round — our goal every election season is to help you **vote your values with confidence** based on the facts (not the confusing ads and mailers).

SaveCalifornia.com supports only 3 of the 11 propositions. **To see our in-depth analysis of each proposition, please visit our Pro-Family Election Center at <http://savecalifornia.com/election-center.html> (also featuring links to statewide candidate voter guides).**

Our Prop. Recommendations

1 NO A big-government "housing" bond (more costly than a direct tax, this would cost California taxpayers \$5.9 BILLION) that would create a new dependent class with the State replacing the private sector in the development of new housing.

2 NO Another big-government "housing" bond costing taxpayers up to \$5.6 BILLION, while doing zero to solve mental illness, yet rewarding transients.

3 NO This very expensive "water" bond would "soak" taxpayers for \$17.3 BILLION at the behest of the inhuman environmental groups, without constructing any new water storage for Californians, who pay too much for too little water.

4 NO A \$2.9 BILLION money-grab by hospitals (this the 3rd time since 2004 that the private sector has qualified a ballot measure demanding that you fund them).

5 YES Eliminates the so-called "moving tax" for homeowners 55 years and older who move to a new primary residence -- their property tax will not increase.

6 YES Repeals the unnecessary and burdensome gas tax and DMV fee hikes from 2017 (if Prop. 6 doesn't pass, next year you'll pay 76.7 cents total tax for each gallon of gas).

7 NO With Daylight Saving Time, Californians drive more safely, are outside more, and children on winter mornings don't have to walk to school in the dark; vote No on 7 to prohibit the State Legislature from eliminating this reality.

8 NO Caps prices at kidney dialysis clinics, likely causing clinic closures and sending needy patients to the ER, where taxpayers often foot the bill.

9 REMOVED FROM THE BALLOT (While the People's "3 Californias" initiative qualified for the ballot, you can't vote on it since Prop. 9 was unconstitutionally yanked by the California Supreme Court.)

10 NO Caps rents at all rental housing, establishes up to 539 new government rental boards that can add fees on top of rents, demotivates landlords from renting residential properties, and will reduce the number of rentals and new rental properties in California.

11 YES Fixes a bad state law of the Democrat politicians on mandatory meal and rest breaks, instead allowing private emergency medical technicians and paramedics to respond to calls while on a break, just like firefighters and police.

12 NO This invasive measure by animal "rights" activists would financially harm California families by increasing everyone's costs for meat and eggs, and by creating an expansive new bureaucracy threatening ranchers in and out of state.

SaveCalifornia.com provides this solely for educational purposes and does not support or oppose candidates for public office.
